SOFTWARE SOLUTION

TRANSMITTER — *SNMP*

ENVIRONMENT **SENSORS** — *GPIOs*

SAT **RECEIVER** — *PING*

AUDIO **PROCESSOR** — *SERIAL (RS232/485)*

POWER **SENSOR** — *Modbus*

UPS — *CUSTOMIZED DRIVER*

ENCODER — *TUNNELING*

DOOR — *GPIOs*

ScriptEasy is a graphical application for configuring IO's and writing scripts and programming specific actions.
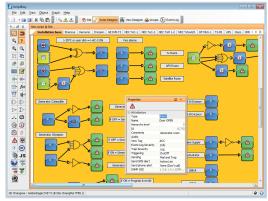

ScriptEasy

- Graphical script and view(s) creation with drag and drop method
- Logic doors, mathematical functions, timers, schedulers, pulses
- Counters, cycles, ping, push and press buttons, …
- Drawing tools and comments to help organize the script
- Remote control or automatic actions triggered by relevant information such as events or a combination of statuses
- Advanced functions: Tunneling, ping SNMP commands (SET, GET, GETBULK), SNMP trap reception
- Drivers for dialogs with 3rd party devices via serial connection
- Script operations can be simulated locally, modified, saved and restored or copied from a unit to another.

ScriptEasy - Script Creation

MasterView

- Provides remote monitoring and control from virtually anywhere
- Each view can contain as much information as desired
- Pictures, text and other graphics can be added to the views
- Drawing tools to help create friendly, customized view(s)
- Different views possible to group information or to provide a specific status
- Available as a web application
- View creation and customization using a standard web browser

And More

- HTTP or HTTPS secured access for the views and commands
- User levels allowing access rights in admin or guest mode
- Management of the information refresh rate
- Logs: one month for measurements and 30.000 last events
- WorldCast Systems support for scripting and installation

MasterView - Customized view(s)
